Market Place Exchange

Solve the challenge of unsolicited donations. Deploy for private business donors, or open for public access as well. Donors make offers, recipients claim, and the entire system is needs based.

- Built on voluntary sector experience and practice
- Donors list offers, Agencies express needs for informed giving
- Public messaging tools to focus the public on actual needs, to reduce unwanted accumulation of unneeded goods

Includes a warehouse / allocator role for rapid system management during large scale events.

Ready for instant deployment using proven templates, or use the no-code administrative suite to configure any component.
