

SHELTERING & HOUSING

VISIONLINK Community Operating System™

CommunityOS®

The only multi-agency, multi-program, multi-event platform for coordinating core operational activities following a disaster, emergency, or public health crisis.

This platform is built for direct collaboration with the voluntary and private sectors, and with governmental agencies.

Our suite of operational tools includes Shelter Management, Donations Management, Volunteer Coordination, Community Services, Crisis Call Center Operations, Workforce Management, and Disaster Case Management.

Proven Expertise

For more than three decades Visionlink has powered the leading disaster relief organizations. Expert, experienced staff, hundreds of relief operations, the most advanced and comprehensive solution in the market.

Shelter System Management

This essential housing tool is designed for every possible operational need following a disaster, public health emergency, or other persistent social service needs—from bed capacity to supply tracking to daily feeding and incident reporting—with granular reporting across any number of locations.

- Build inventories of available facilities. Search for capabilities and amenities to find the right location for staging operations.
- Track dormitory style scenarios, corporate lodging / hotels, plus home sharing options all within one trusted framework.
- Coordinate shelter services with client case records to deliver wrap around services, or use our workforce management tools.
- Other services are available to make your sheltering operations safe and secure with badges, geofencing, and background screening for volunteers, medical license verification and more.
