

# SOLUTION BUILDING

VISIONLINK Community Operating System™

## CommunityOS®

The only multi-agency, multi-program, multi-event platform for coordinating core operational activities following a disaster, emergency, or public health crisis.

This platform is built for direct collaboration with the voluntary and private sectors, and with governmental agencies.

Our suite of operational tools includes Shelter Management, Donations Management, Volunteer Coordination, Community Services, Crisis Call Center Operations, Workforce Management, and Disaster Case Management.

## Proven Expertise

For more than three decades Visionlink has powered the leading disaster relief organizations. Expert, experienced staff, hundreds of relief operations, the most advanced and comprehensive solution in the market.

The screenshot displays the Visionlink Community Operating System interface. It features several modules with red buttons: 'Partner Network' (Add, Search), 'Neighborhood Canvassing' (Reports, Search), 'Outreach & Services' (Interview, Search), and 'Impact Reporting' (Analyze). A map of New York City is shown in the background with a yellow pin and a magnifying glass over the number 5. A table titled 'Manage Partners' is visible, containing one entry:

Name	Type	Address
NYC Preparedness Teams	Non-Profit [501(c)3]	253 Broadway #10 New York NY, 10007, US

## Solution Building

While our pre-built tools manage a wide range of operational activities following a disaster, we also work with communities to build specific solutions to meet your programs and initiatives. These tools meet both the community's needs for transparency and equity and grant requirements for reporting and stewardship.

- Trusted Partner Networks
- Situational Awareness
- Multi-Event
- Multi-Location
- Multi-Language
- Mobile Responsive
