

LEARNING MANAGEMENT SOLUTIONS

VISIONLINK Community Operating System™

CommunityOS®

The multi-agency, multi-program, multi-event platform for coordinating core operational activities following a disaster, emergency, or public health crisis.

Built for direct collaboration with the voluntary, private, government, and community services sectors.

The suite of operational tools: Damage Assessments, Shelter Management, Donations, Volunteer Coordination, Community Services, Crisis Call Center Operations, Workforce Management, and FEMA compliant Disaster Case Management.

Training Expertise

Visionlink's training expertise has been deployed by the American Red Cross, the CDC, United Way Worldwide, NVOAD, nonprofits large and small, and state and county governments. Most recently, to train hundreds of specialists for the Texas State Commission for Health & Human Services.

Branding

Use your own theme and branding to align with your organization's identity.

Registrations

Easy, online registrations, bulk registrations, historical record keeping, account management.

Learning Content

Supports your content—decks, videos, documents, PDFs—virtually any content type, organized by program, standard, course, contract, or doctrine. Downloadable manuals, too.

Assessments

Optionally, link assessments to course content, with either qualitative and/or quantitative feedback and scoring.

Requirements

Organize learning content by participant role, specific training deadlines, and recurring certification requirements.

Certifications

Print your own branded, course-specific certifications & badges.

No-Code Administrative Suite

Quickly deployed by Visionlink's training staff to meet your needs, or use the Administrative Suite to design and build your own learning system—with no programming requirements.

Support Services

Professional Trainers & Help Desk at the ready. Mobile ready, multi-lingual, assistive device compliant.
